Some words about Molfetta

Associazione InCo has a local office in Molfetta, a community of Apulia. Molfetta has 60.000 inhabitants and its economy is historically based on fishing and agriculture. In the last 20 years an industrial area, still enlarging, has been settled. The climate is generally quiet and poor of rain, although the temperature changes are fast and short, due to the wind from the Balkan area. In spite of the fact that our area has good road, railways, air and maritime facilities, and that it has strategic links with the East-Mediterranean and Balkan countries, it is quite distant from the so-called heart of Europe. Molfetta is known in the last years for an important growth in terms of commercial activities and attractions, thanks to the recent creation of a huge commercial area (outlet and shopping mall), provided of shops, national chains, outlet, luna park, hard discount, cinemas and so on. At the same time in the old city town many restaurants, bars, and youth centers are very crowded during the weekend and in the evening.

During the national/local holidays an important role play the traditions and religious events in the city such as the Easter processions, the trade fair in September and the live nativity scenes in Christmas time.

Associazione InCo - Molfetta

It is a no-profit association, born at unformal level in 2013, thanks to a group of members moving to Apulia region after many mobility experiences. The aim of the association is to promote and support mobility abroad, contacts, exchanges and meetings at international level; to promote mutual tolerance and intercultural sensitivity among young people; to support the unformal process of European integration in our community. In addition, InCo-Molfetta activities are addressed to create intercultural abilities and non-formal competences for all the participants.
