SOLIDARNOŚCI

Volunteers do not need to have any special qualifications to work with children, but some experience in the field is essential. They should be ready to work with a big group of kids for a long period of time, have good interpersonal skills and basic knowledge of the development and needs of primary school and pre-school children.

An interest in sports, art, dancing, theatre, circus tricks or music would be an advantage, because those classes are very appreciated by our pupils.

Having manual and computer skills will be very useful in helping teachers too. Good organizational skills are crucial due to the importance of planning and leading volunteer's own activities and supporting important events.

Participants are expected to be open and ready to share own ESC experience with the local community during different events (picnics, festivals, conferences).
